

Duncan Williamson says to our  
**World Cup Footballers Don't ...**

1 Blast the ball into the shaded area: it's not a goal

2 Aim the ball straight at the goalie within this shaded area: it's not a goal

3 Fall over with an arched back when an opposing player comes within your vicinity: it's cheating, it fools no one and you look stupid

4 Wear a pony tail: you look a right Mary Anne

5 Kick the ball smack bang into the wall at a free kick: you cannot score a goal doing that

6 Complain about the ball: goalies taking goal kicks can make it fly straight as an arrow

7 Blame the weather: everyone else is suffering in the same way so prepare properly

8 Go on about Wayne Rooney: it's tedious

9 Hold your shin and wince after a tackle: you are wearing shin pads for protection against such tackles!

10 Buy shin pads that let the pain through: buy some better ones and be smart
